

The background of the cover is an abstract design featuring flowing, wavy lines in various shades of green and yellow. The lines originate from the left side and curve towards the right, creating a sense of movement and depth. The colors transition from a deep green on the left to a bright yellow on the right, with various translucent layers overlapping to create a complex, organic feel.

KYOSAI IN JAPAN

— FACT BOOK 2023 —

JAPAN COOPERATIVE INSURANCE ASSOCIATION INCORPORATED

KYOSAI IN JAPAN FACT BOOK 2023

This brochure has been compiled to introduce the business result of the major kyosai organizations in Japan for fiscal 2022 and activities of JCIA (Japan Cooperative Insurance Association Incorporated) and its member societies.

Each cooperative engaged in kyosai business offers support to its members who are anxious about various things such as natural disasters, road accidents, illness, and their old age, and gets involved in activities to expand its network of “mutual aid.”

Consequently, the main kyosai organizations under cooperative laws in fiscal 2022 achieved business results as follows; the number of members: 78 million, the number of policies: 130 million, the amount insured: 797 trillion yen, the premium income : 5,966 billion yen, the claims paid: 4,334 billion yen, the total assets: 66,461 billion yen.

The kyosai organizations have been playing a significant role to supplement social security system in Japan by providing a means of mutual help among their members.

The kyosai organizations will endeavor to carry out their social responsibilities in order to meet members' expectations through products that satisfy their needs and prompt claim payments. We appreciate your continued support and understanding.

We hope this brochure will be useful for well understanding about kyosai and its societies in Japan.

I Kyosai Business in Japan

1 Cooperatives and Kyosai Business

(1) About Cooperatives

A cooperative is a non-profit organization established voluntarily by a group of people who desire to improve their lives and carry out various activities.

Anyone who pays membership fee in accordance with the terms and conditions of each organization can become a member. The members of a cooperative are able to take advantage of various services offered by each cooperative and can reflect their own views on the operation. As symbolized by the slogan, “One for all and all for one,” cooperatives aim to protect and enrich the lives of their members based on the concept of mutual help.

The services of cooperatives are wide-ranging and related to all aspects of our daily life, including agriculture, forestry, fisheries, purchasing, banking, kyosai, job creation, traveling, housing, welfare, and medical care.

Cooperatives around the world share the same principles to put these values into practice. Especially, they are internationally expected to serve as one of the organizations to be able to resolve or relieve social problems in each country including unemployment, poverty, and disparity.

(2) About Kyosai

The kyosai is a mutual aid system where the members share their premium to establish mutual assets, and the funds are paid out at times of unexpected contingencies, to compensate for the financial deficit and stabilize the lives of the members and their family in preparation for various risks that jeopardize our daily life such as the death, hospitalization, house damage or traffic accidents.

2 Major Kyosai Organizations in Japan

In Japan various kinds of Kyosai Organizations exist and there are four kinds of cooperative laws such as Agricultural Cooperative Society Law, Fisheries Cooperative Association Law, Consumers’ Livelihood Cooperative Society Law and Small, and Medium Sized Enterprise Cooperative Act.

Each Kyosai Organizations is according to the applicable law permitted to operate kyosai.

3 Major Product Line by Kyosai Organizations

Kyosai products by the cooperatives cover total protection such as life and non-life as preparation for a variety of risks members face within their lives.

Kyosai organizations provide a wide range of coverage to satisfy the needs of their members. Among them, the five typical products are as follows;

(1) Fire Kyosai

This is to provide coverage against damages to homes and contents caused by fire, lightning strike, burst and explosion. Also, there are some products which cover the damage caused by earthquake, storm, flood and snowfall.

(2) Life Kyosai

This is to provide coverage against risks with regard to physical well-being (death, physical impediment, sickness, injury, nursing care). There are other types of kyosai under which a policyholder can reserve money for the life or for the education of children.

(3) Personal Accident Kyosai

This is to provide coverage for death or injury etc. caused by a variety of accidents.

(4) Automobile Kyosai

This policy provides compensation for damages to the other party caused by automobile accidents, accident coverage for the insured and their family members, and physical damage coverage for policyholders' vehicles.

All vehicles including motorbikes and moped must be insured with the compulsory automobile liability kyosai.

(5) Annuity Kyosai

Annuities are paid every year beyond the specified age after the contribution period to ensure financial stability after retirement.

III About JCIA

1 JCIA

JCIA is a general incorporated association which was established for the purpose of promoting coordination among member societies and contributing to the development of cooperatives and kyosai. Main activities of JCIA are Research and Studies of cooperatives and kyosai, Human Resources Development and Training for

member societies, Public Relations, Publishing a monthly journal “Cooperative and Commercial Insurance”, and Providing Consultations about inquiries and complaints from policy holders and/or their related persons.

2 Objectives

The purpose of JCIA shall be to promote sound development of the kyosai businesses operated by cooperatives, thereby contributing to stabilizing the lives and improving the welfare of people engaged in

the agriculture, forestry and fisheries industries as well as other employees and workers in local communities or small and medium-sized business owners.

3 History

After World War II, quite a few kyosai organizations were established and have subsequently developed in Japan. Kyosai has steadily spread its network of cooperation and drawn further attention from the society as an entity supporting many members' life.

In these surroundings, cooperation and exchanges between kyosai organizations with common philosophy and base had been increasing, and there has arisen a need to establish a framework to share and coordinate the opinions of these societies in order to deal with common issues.

Under these circumstances, in April 1992, JCIA was established as a body to promote cooperation and coordination among kyosai organizations as a result of collective efforts by seven kyosai organizations.

After an establishment, JCIA has carried out activities

such as research and study, training, publication, holding seminars and lectures, conducting “Research Committee on Cooperative Insurance Theory” in order to deal with common issues among the member societies and to promote exchanges between kyosai organizations.

JCIA launched the Customer Consultation Department in 2003 as the third party body with the aim of consultation and support for the resolution of complaints from cooperative insurance policyholders. It was certified by the Minister of Justice under the ADR Promotion Act in 2010.

JCIA made a transition to a general incorporated association in April 2013, responding to a reform of the public interest corporation.

※The above figures are the total amount of payments calculated based on reports from individual member societies as of the end of September 2023. Some member societies may include in the amount of payments not only general insurance payouts but also life insurance payouts.

The total amount of payments does not include any payments made by member societies who are not able to figure out the amount for each disaster.

(2) Member Societies' Efforts

■ Distribution of free disaster-relief tarpaulins/emergency kits and provision of free temporary housing

Zenkyoren provides free disaster-relief tarpaulins and emergency kits to its policyholders whose houses have been damaged due to natural disaster and provides temporary housing free of charge for eight months if they can no longer live in their houses due to a fire or other disaster. (This service is for **Zenkyoren** policyholders who fulfill certain requirements.)

■ Disaster prevention class by professor the Vuton

With Jishin the Vuton, a chair-type earthquake simulator, **Zenkyoren** offers on-site training programs where people can experience real ground motion caused by earthquakes that occurred in the past and realize anew the necessity of preparing daily for an earthquake, such as fixing of furniture.

Experiences of Jishin the Vuton

■ Support activities including visits to all insured households

Kyosuioren visits all insured households in the disaster-stricken regions to assess any earthquake and typhoon damage, and works to provide relief payments as quickly as possible. Moreover, **Kyosuioren** has conducted disaster relief activities, including the delivery of relief supplies to the victims of natural disasters that occurred in FY2022, including heavy rainfalls, typhoons, and earthquakes.

■ Information Provision Activities through the Information Magazine “Inochi no Koe (The Voice of Life)”

Kyosuioren distributes “Inochi no Koe,” an information publication to protect people from natural disasters and marine accidents and posts it on the **Kyosuioren** website. “Inochi no Koe” is an information magazine that asks its members to share their experiences and lessons learned from various large-scale disasters that have occurred in the past and provides them as a “voice” to people in coastal areas to help protect them from disasters. The magazine provides information on mutual aid in readiness for future disasters in a spirit of mutual support and empathy of both the providers and recipients of such information.

■ Future Disaster Prevention and Mitigation Project

Kokumin Kyosai co-op, which started out as a housing insurance provider, has been developing the “Future Disaster Prevention and Mitigation Project” since March 2021 to further promote the development of disaster prevention and mitigation and network building based on the lessons learned and experience gained from in disaster responses to date.

① Moshimo Project

The “Moshimo (what-if) Project” is an initiative that aims to create a resilient city by encouraging individuals to think about what they can do in case of an emergency to be prepared for such an event. In FY 2022, **Kokumin Kyosai co-op** promoted initiatives such as the “Moshimo Festival (Shibuya Ward, Nagoya City)” and “the Bosai Caravan (Shibuya Ward)” at elementary and junior high schools through co-creation with entities such as local governments, companies, media, related organizations, and consumers.

② Disaster Prevention and Mitigation using PCs and Smartphones

To promote disaster preparedness among members and consumers, **Kokumin Kyosai co-op** develops and provides contents and services that encourage awareness of disaster prevention and mitigation through its website and official apps.

<Kokumin Kyosai co-op Official App>

Kokumin Kyosai co-op provides various contents useful for disaster prevention and mitigation, such as the “Diagnosis Service for the ground under your House” and the “Disaster Prevention Leader” Diagnosis.

< Kokumin Life Support >

Kokumin Kyosai co-op has launched a new service called “Kokumin Life Support” to support the lives of citizens by providing security and life support. The “Life Design Support” feature of Citizens’ Life Support offers a “Life Reconstruction Support Guide for Disaster Victims” that summarizes the contents and procedures of public services available in the event of a disaster.

③ Disaster Prevention and Mitigation program for Children

— Cocreation with Junior Eco-club —

Since FY2021 as a co-creation activity with Japan Environment Association, one of the recipients of the donation, **Kokumin Kyosai co-op** has been providing disaster prevention and mitigation programs for children of the “Junior Eco Club,” a body engaged in environmental education and environmental studies throughout Japan.

In FY2022, **Kokumin Kyosai co-op** provided the “Bosai at Home X Eco CAMP,” a disaster prevention and mitigation program that could be implemented during Covid-19 Pandemic, with the participation of 121 clubs (1,813 participants) from across Japan.

■ Contribution to disaster prevention and mitigation by offering risk maps

Kyoei Fire & Marine Insurance creates and offers a risk map for each location to raise awareness of disaster prevention and mitigation and contribute to the safety and security of each community. With the risk map, **Kyoei Fire** makes efforts to talk with individual and corporate clients. Behind **Kyoei Fire**’s efforts, the risk of property damage and long-term leave is increasing due to intensified large-scale storm and flood damage that occurs more and more frequently.

5 International Activities of the Member Societies

Philosophy and practice of cooperatives have been spreading not only in Japan but also in the world.

Each member society participates in various international activities based on its belief that development of co-operative movement in the world contributes to the world peace, enhances social justice and improves people's living and welfare.

(1) ICA

International Co-operative Alliance (ICA, established in 1895, and headquartered in Brussels, Belgium) is an alliance of cooperatives, in which more than 310 alliance members across 107 countries participate. Nationwide organizations of cooperatives across all kinds of sectors including agriculture, consumer, credit, insurance, health, fishery, forestry, workers, tourism, housing, and energy join in ICA from all over the world. The worldwide affiliated members of ICA amount to about 1 billion individuals.

For the purpose of expanding the cooperative movement all over the world, promoting international cooperation among cooperatives, disseminating the values and principles of a cooperative, and contributing to world peace and security, ICA has been working on spreading information, conducting international conferences and seminars, and taking initiatives to reflect its opinions and suggestions to the United Nations (UN) agencies and other organizations.

JCIA has been an associate member of ICA since 2014.

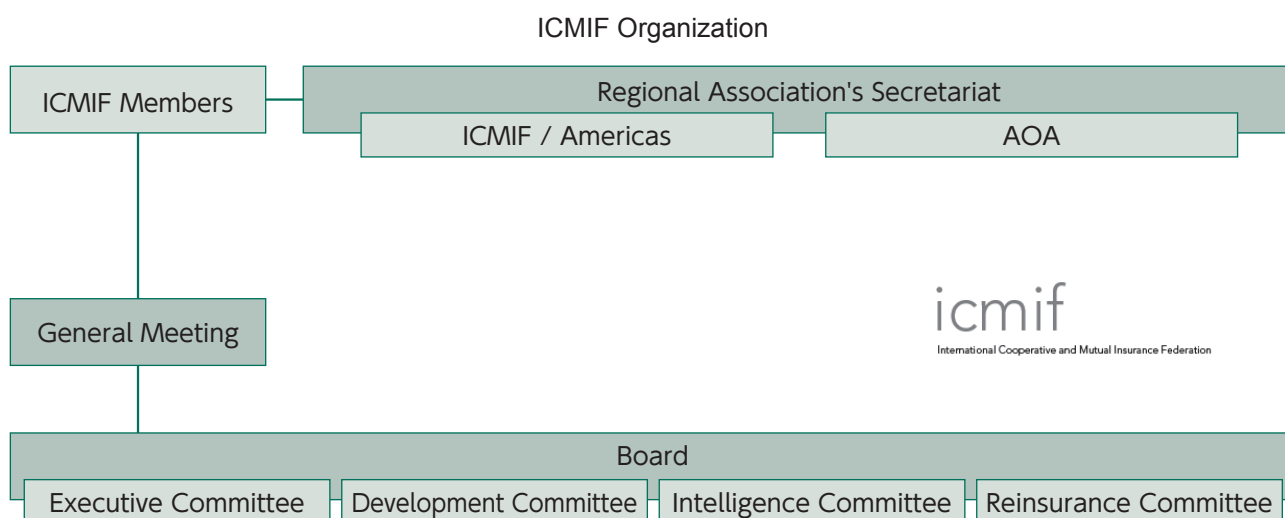

(2) ICMIF

International Co-operative and Mutual Insurance Federation (ICMIF, established in 1922, and its secretariat in Manchester, UK), is one of the sectional organizations of ICA. There are 205 members at ICMIF as of October 2023. The total amount of premium income in all members in 2021, is about 249 billion USD. ICMIF conducts some activities, such as exchanging information, holding a seminar, personnel exchange and reinsurance business in order to work toward development of cooperative insurance.

There are seven ICMIF full members, which are Zenkyoren, Kyosairen, Kokumin Kyosai co-op, Nihon Saikyosairen, CO-OP Kyosairen, Nikkaren, and Kyoei Fire among JCIA member societies, also JCIA is an associate member. Zenkyoren and Kokumin Kyosai co-op are the ICMIF Board member. Japanese ICMIF members enhance international cooperation by serving as the director or the member of various committees of ICMIF.

Also, there are 46 members in 11 countries at Asia and Oceania Association of the ICMIF (AOA), which is a regional association of ICMIF, as of October 2023, and it holds a seminar, a forum and so on.

AOA's Secretariat is at Zenkyoren, and Japanese kyosai organizations have played leadership role of its operation.

AOA Seminar and Young Leaders' Program

AOA seminar was held in Sydney, Australia, in September 2023, with a total of 116 participants from 34 organizations in 12 countries.

Under the theme of “Our Vision for the Future - Mid-term business management and strategy,” participants presented case studies on creating attractive organizations and workplaces, CX, digitalization, and climate change initiatives. From Japan, 24 people participated from 5 organizations: Zenkyoren, Kyosuioren, Kokumin Kyosai co-op, CO-OP Kyosairen, and JCIA.

At the seminar, the “Young Leaders' Program” was provided for young leaders of AOA member organizations with a round table discussion with CEOs of AOA member organizations. From Japan, 14 people joined the program from 5 organizations: Zenkyoren, Kyosuioren, Kokumin Kyosai co-op, CO-OP Kyosairen, and JCIA, and there were 23 participants from 5 countries in total.

1 Beginning of the Modern Cooperative Movement in the World

The Rochdale Equitable Pioneers Society, established by a group of 28 artisans in the town of Rochdale in 1844, is generally regarded as the prototype of the modern cooperative society.

The original rules and practices they put in place formed what are known as the Rochdale Principles of Co-operation, foremost among which are the principles of ‘one member one vote’, ‘pro rata distribution of profits upon the amount of purchases’, ‘charging the market prices without credit’, and ‘allocation of certain profits to education’. These principles are known as the Rochdale Principles of Co-operation and have been succeeded to the cooperative movement today.

These cooperative principles were adopted as a form of “Statement on the Cooperative Identity” (see page 29) at the General Assembly held in Manchester in 1995.

Today, cooperatives are offering a variety of products and services in many countries worldwide and are estimated to have around 1.2 billion members.

The actual building of the Rochdale Equitable Pioneers Society established in 1844. This is currently used as the Rochdale Pioneers Museum.

2 History of Kyosai in Japan

(1) Establishment of Industrial Union

After the medieval period, mutual financing associations called ‘tanomoshi-kou’ or ‘Yui-kou’ came into existence among community members in villages and towns. However those associations gradually ceased to exist as a result of the modernization by the Meiji Government.

Nevertheless, German cooperatives attracted the attention of the Japanese Government, which focused on importing advanced western systems under a policy of increasing wealth and military power. “A cooperative model contributes to the stable lives of farmers which makes up the majority of the Japanese population, and will lead to political stability in the long run.” This was the background of establishing approval of the Industrial Union Act in 1900 by the Meiji Government. The act, Japan’s first legislation on cooperatives, had clauses such as ‘freedom of membership & withdrawal’ and ‘one member one vote’. The industrial unions which were established based on this act later became Agricultural cooperatives, Consumer cooperatives and Credit Unions that we see today.

(2) The Dawn of Kyosai

The idea of providing insurance services through industrial unions emerged at the beginning of the Taisho Period. At the 20th National Industrial Union General Meeting in 1924, a resolution of ‘Commencement of life insurance service’ was officially proposed and approved. Although the same kind of resolutions had been adopted almost every year at the general meetings until 1935, it was quite difficult to realize the service.

Toyohiko Kagawa insisted that industrial unions needed to be authorized to do insurance business under the Insurance Business Act, but it did not come true. There were two main reasons for this: the policy of Ministry of Finance to close the insurance market from the unions, and strong opposition from existing insurance companies to open the market to the unions.

Mr Kagawa and his peers tried to purchase insurance companies. They realized a great success in purchasing and merging two companies and set up Kyoei Fire & Marine Insurance Company in 1942. It started as a company which emphasized its industrial union character with several leaders from industrial unions assuming key posts in the management team.

In later years, various cooperative laws according to each business sector were enacted during the years between 1947 and 1949, which provided cooperatives with the basis with which to start Kyosai business, as well as other services.

(3) Toyohiko Kagawa

Toyohiko Kagawa (1888-1960) was a social reformer and the first million seller in Japan during Taisho and Syowa period. He played a great role in the labor movement and peasant movement as well as in the cooperative movement in prewar Japan. Moved by words, “One for all, all for one”, he devoted his life to realize a society based on mutual help. “The true nature of insurance is derived from comradeship and socialism, however commercial insurers make its transition to capitalism. Insurance should be provided by cooperatives”, he stated and made every effort to include a clause on ‘cooperative insurance’ in Insurance Business Law. However, his dream did not come to pass.

Later, cooperative societies started to provide kyosai services, which were different from original idea, under the supervision of various cooperative acts.

3 Applicable Laws of Major Kyosai Organizations in Japan (Extract)

In Japan, various types of cooperatives are operating on different bases and conditions. Also, applicable laws in which Japanese authorities regulate the kyosai organizations’ business and management are diverse according to the types of organizational background.

Each applicable law stipulates the objects of each law and of each organization. The clause spells out what cooperatives desire to achieve through kyosai services.

Agricultural Cooperative Law ◇Zenkyoren

Article 1 This law has for its objective the promotion of the sound development of the farmers cooperative system, thereby improving agricultural productivity and the socio-economic states of farmers as well as ensuring the development of national economy.

Article 7 A cooperative has for its objective the performance of business in order to serve its members and member cooperatives to the maximum degree.

Fisheries Cooperative Association Law ◇Kysuiren

Article 1 This law has for its purpose advancement of the national economy by increasing fisheries productivity and improving the economic and social status of fishermen and marine products processors through the development of fisheries cooperative association.

Article 4 A cooperative has for its objective the performance of business in order to serve its members and member cooperatives (omitted) to the maximum degree, and shall not be allowed to do business for profit making purpose.

Consumer Cooperative Law ◇Kokumin Kyosai co-op, Nihon Saikyosairen, CO-OP Kyosairen, Zenkokuseikyoren, Seikyo Zenkyoren, Boseikyo, Kanagawa Kenmin Kyosai etc

Article 1 This law has for its objective of the voluntary development of the consumer cooperative system by people, thereby stabilizing the people’s lives and improving the life and culture.

Article 9 The objective of each Association shall be consistent with the functions which it is authorized to perform.

Small and Medium-Sized Enterprise Cooperatives Act ◇Nikkaren, Kokyoren, Zenjikyo, Chusairen, Kaigyoui Kyosai etc

Article 1 The purpose of this Act is to provide for the organizations necessary for persons engaged in a small and medium-sized commercial business, industrial business, mining business, transport business, service business or any other business and other persons, such as workers, to engage in business in a cooperative manner based on the spirit of mutual support, and to secure the opportunity for these people to conduct fair economic activities, thereby promoting their voluntary economic activities and achieving an improvement in their economic status.

Article 5 (1) (i) The purpose of the cooperative shall be mutual support among partner of the cooperative or partner of the federation.

(2) A cooperative shall have the purpose to directly serve its partner through its activities, and it shall not conduct any activities for the purpose of only benefiting specific partner.

(3) A cooperative shall not be utilized for any specifical party.

4 ICA Statement on the Co-operative Identity

The Statement on Co-operative Identity was adopted at the 1995 General Assembly of the International Co-operative Alliance (ICA), held in Manchester on the occasion of the Alliance's Centenary. The Statement was the product of a lengthy process of consultation involving thousands of co-operatives around the world.

〈Definition〉

A co-operative is an autonomous association of persons united voluntarily to meet their common economic, social, and cultural needs and aspirations through a jointly-owned and democratically-controlled enterprise.

〈Values〉

Co-operatives are based on the values of self-help, self-responsibility, democracy, equality, equity and solidarity. In the tradition of their founders, co-operative members believe in the ethical values of honesty, openness, social responsibility and caring for others.

〈Principles〉

The co-operative principles are guidelines by which co-operatives put their values into practice.

1. Voluntary and Open Membership

Co-operatives are voluntary organisations, open to all persons able to use their services and willing to accept the responsibilities of membership, without gender, social, racial, political or religious discrimination.

2. Democratic Member Control

Co-operatives are democratic organisations controlled by their members, who actively participate in setting their policies and making decisions. Men and women serving as elected representatives are accountable to the membership. In primary co-operatives members have equal voting rights (one member, one vote) and co-operatives at other levels are also organised in a democratic manner.

3. Member Economic Participation

Members contribute equitably to, and democratically control, the capital of their co-operative. At least part of that capital

is usually the common property of the co-operative. Members usually receive limited compensation, if any, on capital subscribed as a condition of membership. Members allocate surpluses for any or all of the following purposes: developing their co-operative, possibly by setting up reserves, part of which at least would be indivisible; benefiting members in proportion to their transactions with the co-operative; and supporting other activities approved by the membership.

4. Autonomy and Independence

Co-operatives are autonomous, self-help organisations controlled by their members. If they enter into agreements with other organisations, including governments, or raise capital from external sources, they do so on terms that ensure democratic control by their members and maintain their co-operative autonomy.

5. Education, Training and Information

Co-operatives provide education and training for their members, elected representatives, managers, and employees so they can contribute effectively to the development of their co-operatives. They inform the general public - particularly young people and opinion leaders - about the nature and benefits of co-operation.

6. Co-operation among Co-operatives

Co-operatives serve their members most effectively and strengthen the co-operative movement by working together through local, national, regional and international structures.

7. Concern for Community

Co-operatives work for the sustainable development of their communities through policies approved by their members.

5 Inscription on the UNESCO Intangible Cultural Heritage List

In November 2016, UNESCO (United Nations Educational, Scientific and Cultural Organization) decided, after a proposal by Germany, to include the “idea and practice of organizing shared interests in cooperatives” on UNESCO’s Intangible Cultural Heritage list. Intangible cultural heritage is defined in the Convention for the Safeguarding of the Intangible Cultural Heritage as “the practices, expressions, knowledge, skills, etc. that, transmitted from generation to generation, are constantly recreated by communities and groups.” The Intergovernmental Committee which decided the inscription praised a cooperative as an “association that allows for community building through shared interests and values creating innovative solutions to societal problems, from generating employment and assisting seniors to urban revitalization and renewable energy projects.”

Moreover, the 2030 Agenda for Sustainable Development adopted by the United Nations 70th General Assembly in September 2015 acknowledges the role of the diverse private sector, such as “cooperatives,” in achieving the 17 Sustainable Development Goals (SDGs) set out in the agenda.

As described above, cooperatives are receiving increasing recognition from the international community. Cooperatives in Japan are also expected to further develop the idea and practice of cooperatives to pass them on to the next generation, through ceaseless efforts to produce effective solutions to problems faced by local communities and create better lives, work and community.

6 Japan Co-operative Alliance (JCA)

In Japan, over 107 million people in total are members of cooperatives, and the cooperative industries that range from agriculture, forestry, fisheries, purchasing, finance, mutual insurance, job creation, welfare, medical care, travel, housing and so on.

In April 2018 Japan Co-operative Alliance (JCA) was organized in order that cooperatives work together with each other to solve various issues that they face and that the possibilities of their roles and functions expand in the region.

JCA’s predecessor, Japan Joint Committee of Co-operatives (JJC) was established in 1956 to promote collaboration among Japanese cooperatives. Since its inception JJC had carried out various cooperative activities both domestically and worldwide. In order to further these collaborative activities, JJC was reorganized into JCA.

With the object of contributing to the cooperative’s roles “better living and work creation in sustainable regions”, JCA has following three functions;

- (1) Promotion and Support for cooperation among cooperatives on the regional, prefectural, and national level
- (2) Advocating policies and public relations on cooperatives
- (3) Education, Research and Study on cooperatives

JCA pursues to expand collaboration among cooperatives at each stage of the region, prefecture and nationwide while making full use of JCA’s knowledge, information and networks of its various member societies.

Currently, JCA has nearly 600 organizations including national level cooperative organizations, Prefectural units of Agricultural Co-operatives and regional level various cooperatives. The JCA joined JCA as the second-class member since JCA was founded.
